Payroll Processing System using Zoho Creator (SaaS)

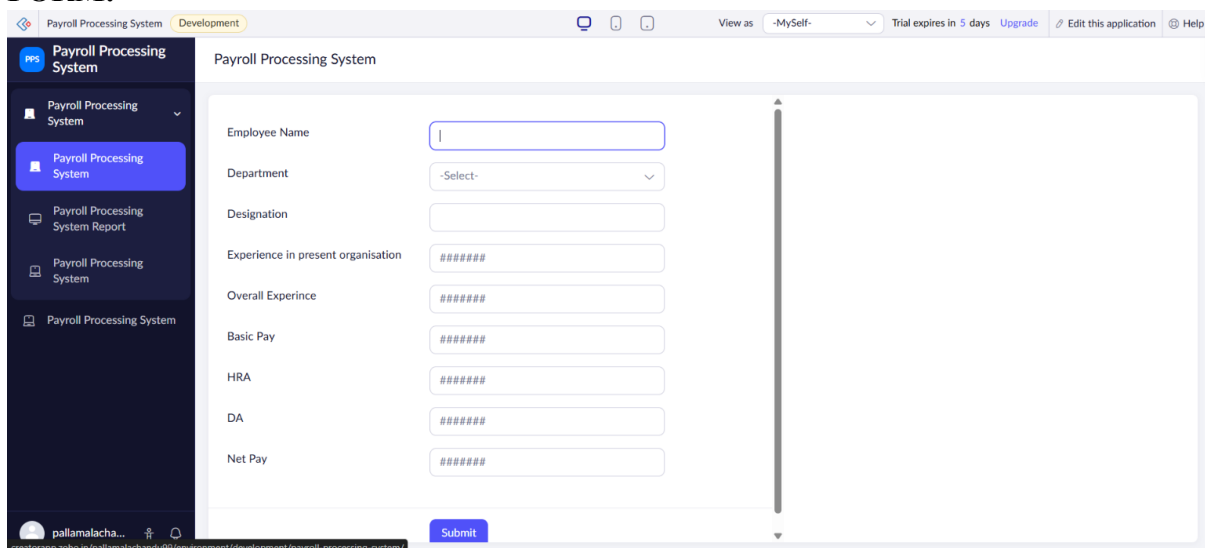

Aim

To create a simple cloud-based Payroll Processing System using Zoho Creator (SaaS) for managing employee details, salary calculation, deductions, and payroll records.

Algorithm

1. Start the application.
2. Login to Zoho Creator.
3. Create a new Payroll Processing System application.
4. Create an Employee form with details such as Employee ID, Name, Department, Designation, Basic Salary, Allowances, and Deductions.
5. Enter employee payroll details.
6. Calculate Gross Salary = Basic Salary + Allowances.
7. Calculate Net Salary = Gross Salary – Deductions.
8. Store the payroll information in the database.
9. Display employee payroll details and salary report.
10. Update or delete payroll records if required.
11. Logout from the application.
12. Stop.

FORM:

The screenshot displays the Zoho Creator interface for a 'Payroll Processing System' application in the 'Development' environment. The left sidebar shows a navigation menu with options: 'Payroll Processing System' (selected), 'Payroll Processing System Report', and 'Payroll Processing System' (repeated). The main form area is titled 'Payroll Processing System' and contains the following fields:

- Employee Name: Text input field.
- Department: Dropdown menu with '-Select-'.
- Designation: Text input field.
- Experience in present organisation: Text input field with '#####' placeholder.
- Overall Experience: Text input field with '#####' placeholder.
- Basic Pay: Text input field with '#####' placeholder.
- HRA: Text input field with '#####' placeholder.
- DA: Text input field with '#####' placeholder.
- Net Pay: Text input field with '#####' placeholder.

A 'Submit' button is located at the bottom right of the form. The top of the interface shows the application name, environment, and user information.

DASHBOARD:

Result

The Payroll Processing System was successfully developed using Zoho Creator (SaaS). The application stores employee details, automatically calculates salaries, manages payroll records, and generates payroll reports efficiently through a cloud-based platform.
