

Car Booking Reservation System

Aim

To create a simple Car Booking Reservation System using Zoho Creator to demonstrate the Software as a Service (SaaS) cloud model.

Algorithm

1. Start the Zoho Creator application.
2. Create a new application named Car Booking Reservation System.
3. Create a form named Car Booking.
4. Add the required fields such as Customer Name, Email, Mobile Number, Booking Type, Pickup Location, Drop Location, Pickup Date, Pickup Time, Package Type, Rental Duration, Car Type, Number of Passengers, Estimated Fare, Payment Method, Booking Status, and Special Instructions.
5. Save the form.
6. Create a List Report to display all cab booking records.
7. Create a dashboard with a title, a Book a Cab button, and the Car Booking Report.
8. Create an On Success workflow to automatically update the booking status to Confirmed and display a success message.
9. (Optional) Create a field workflow to hide the Drop Location field when the booking type is Rental and show it when Outstation is selected.
10. Enter sample booking details and submit the form.
11. Verify that the booking information is stored and displayed in the report

FORM:

The screenshot shows the Zoho Creator interface for the 'Car Booking Reservation System' application. The form is titled 'Car Booking Reservation System' and contains the following fields:

- Customer Name: Text input field.
- Email: Text input field.
- Mobile Number: Text input field with a dropdown for country code (+91) and a value of 81234 56789.
- Booking Type: Radio buttons for 'Rental' and 'Outstation'.
- Pickup Location (From): Dropdown menu with '-Select-'.
- Drop Location (To): Dropdown menu with '-Select-'.
- Pickup Date: Text input field with a date format 'dd-MMM-yyyy'.
- Pickup Time: Text input field with a time format 'HH:mm:ss'.
- Package Type: Dropdown menu with '-Select-'.
- Rental Duration: Text input field with a value of '#####'.

The interface also shows a sidebar with the application name 'Car Booking Reservation System' and a user profile 'pallamalacha...' at the bottom. The top bar includes the application name, a 'Development' tab, and various utility links like 'View as', 'Trial expires in 14 days', 'Upgrade', 'Edit this application', and 'Help'.

Dashboard:

Result

Thus, the Car Booking Reservation System was successfully created using Zoho Creator. The application enables customers to book rental or outstation cabs, stores booking information securely in the cloud, displays all bookings in the report, provides easy access through the dashboard, and demonstrates the Software as a Service (SaaS) cloud model successfully.
