

Property Buying & Rental System

Aim

To create a simple Property Buying & Rental System using Zoho Creator to demonstrate the Software as a Service (SaaS) cloud model for managing property buying and rental requests.

Algorithm

1. Start the Zoho Creator application.
2. Create a new application named Property Buying & Rental System.
3. Create a form named Property Details.
4. Add all required fields such as Customer Name, Email, Mobile Number, Property Type, Requirement, Location, Budget Range, Property Value, Bedrooms, Rental Agreement, and Property Status.
5. Save the form.
6. Create a List Report to display all submitted property records.
7. Create a dashboard containing a title, an Add Property Request button, and the Property Report.
8. Create an On Success workflow to update the Property Status and display a success message.
9. (Optional) Create a field workflow to hide the Rental Agreement Duration field when the user selects Buy, and show it when Rent is selected.
10. Enter sample property details and submit the form.
11. Verify that the property details are stored and displayed in the report and Stop.

Form:

The screenshot displays the Zoho Creator interface for a 'Property Buying & Rental System' application. The left sidebar shows a navigation menu with options like 'Property Buying & Rental System', 'Property Buying & Rental System Report', and 'Property Buying & Rental System'. The main area shows the 'Property Details' form with the following fields:

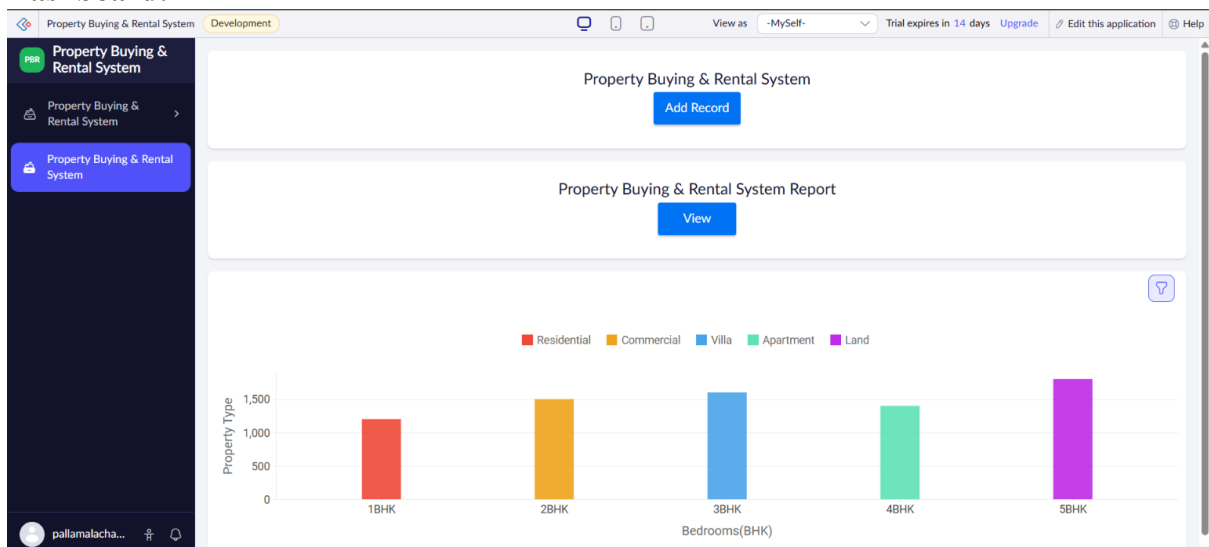

- Customer Name: Split into 'First Name' and 'Last Name' text boxes.
- Email: A single text box.
- Mobile Number: A text box with a country code dropdown (set to +91) and a pre-filled number '81234 56789'.
- Property Type: A dropdown menu with '-Select-'.
- Requirement: Radio buttons for 'Buy' and 'Rent'.
- Area(Sq.ft): A text box with '#####' as a placeholder.
- Location: A dropdown menu with '-Select-'.
- Budget Range: A dropdown menu with '-Select-'.
- CProperty Value (₹)urrency: A text box with '###,###,###' as a placeholder.
- Bedrooms (BHK): A dropdown menu with '-Select-'.

The bottom of the screen shows the Zoho Creator URL: https://creatorapp.zoho.in/pallamalachandru99/environment/development/property-buying-rental-system/#form:Property_Buying_Rental_System.

Report:

Customer Name	Email	Mobile Number	Property Type	Area(Sq.ft)	Location	Requirement

ram	ram345@gmail.com	+913214567896	Land	1800	Porur	Buy
charan raju	charan34@gmail.com	+914563217890	Villa	1600	T. Nagar	Buy
PAVAN kumar	pava234@gmail.com	+913123455678	Apartment	1400	Tambaram	
Arun kumar	arun@gmail.com	+918123456789	Residential	1200	Adyar	Buy

Dashboard:

Result

Thus, the Property Buying & Rental System was successfully created using Zoho Creator. The application allows users to submit property buying or rental requests, stores the details in the cloud, displays them in a report, provides quick access through a dashboard, and demonstrates the Software as a Service (SaaS) cloud model successfully.
