Student Counselling System

Aim

To develop a cloud-based Student Counselling System using Zoho Creator (SaaS) for managing student counselling information, storing records online, generating reports, and displaying dashboards for easy monitoring.

Algorithm

1. Start.
2. Login to the Zoho Creator platform using a valid account.
3. Create a new application named SIMATS Student Counselling System.
4. Create a form named Student Counselling.
5. Add required fields such as Student Name, Age, Address, Phone Number, Email, Subjects Studied, Year of Passing, Percentage of Marks, Domain Interest, Preferred Course, and Counselling Date.
6. Save the form.
7. Enter sample student counselling records.
8. Create reports:
 - All Students
 - Cloud Computing Students
 - AI Students
 - Data Science Students
9. Create a dashboard page.
10. Add the following dashboard components:
 - Total Students (Board)
 - Domain Interest-wise Students (Chart)
 - Student Counselling Report
 - Add Student Button
11. Publish the application.
12. Access the application through a web browser.
13. End.

DASH BOARD:

Result

The Student Counselling System was successfully developed using Zoho Creator (SaaS). The application allows users to add student counselling details, store records securely in the cloud, generate domain-wise reports, display interactive dashboards, and access the system from any web browser without installing software.
