Students Attendance System using Zoho Creator (SaaS)

Aim

To create a Students Attendance System using Zoho Creator to demonstrate the Software as a Service (SaaS) cloud model by managing student attendance records, attendance percentage, OD requests, and grades through a cloud-based application.

Algorithm

1. Start the application.
2. Create a new application in Zoho Creator.
3. Create a form named Student Attendance.
4. Enter student details such as Student Name, Roll Number, Course, and Date.
5. Select the attendance status (Present or Absent).
6. Enter the OD (On Duty) Request status if applicable.
7. Calculate the Attendance Percentage based on attendance records.
8. Assign the Grade according to the attendance percentage.
9. Save the attendance details in the cloud database.
10. Display the attendance report with attendance percentage and grade.
11. Allow users to search, update, or delete attendance records.
12. End the application.

FORM:

The screenshot shows the Zoho Creator interface for the 'Students Attendance System' application. The left sidebar contains a menu with options: 'Students Attendance System', 'Students Attendance System Report', and 'Students Attendance System'. The main form area is titled 'Students Attendance System' and contains the following fields:

- Student Name: Text input field.
- Roll Number: Text input field with a placeholder '#####'.
- Course: Dropdown menu with '-Select-'.
- Date: Text input field with a placeholder 'dd-MMM-yyyy'.
- Present / Absent: Radio buttons for 'Present' and 'Absent'.
- Corse Number: Text input field with a placeholder '#####'.
- OD Request: Radio buttons for 'yes' and 'No'.
- Attendance Percentage: Text input field with a placeholder '#####'.
- Grade: Text input field.
- Remarks: Text input field.

The top of the interface shows the application name 'Students Attendance System', the development status 'Development', and user information 'View as -MySelf-'. It also includes a trial expiration notice 'Trial expires in 10 days', an 'Upgrade' button, and links for 'Edit this application' and 'Help'.

DASHBOARD:

Result

The Students Attendance System was successfully created using Zoho Creator (SaaS). The application stores student attendance records, calculates attendance percentage, manages OD requests, assigns grades, and generates attendance reports efficiently through a cloud-based platform.
